FIRST SEMESTER B. Tech EXAMINATION, NOVEMBER - 2023

COMMUNICATIVE ENGLISH

Time: 3 Hours **Maximum Marks: 100**

Instructions: I. Missing data may be suitably assumed.

ANSWER ALL QUESTIONS

		PART-A	**5 X 2=10**		
1.	**a.**	**Identify the underlined words and name the parts of speech in the following sentences:** **i.** The army fought <u>bravely.</u> **ii.** She strolled down the lane that led ----- the forest.	L1	CO1	**02**
	b.	**Identify the voices in the sentence and change into other voice:** 1) Café latte contains milk. 2) The Chef cooked the meal.	L2	CO2	**02**
	c.	**Write the Phonetic transcription and English word of the following:** **i.** English ii. fɪʃɪŋ	L3	CO3	**02**
	d.	**Find the main clause in this compound sentence:** She is innocent, so she has appealed to the court.	L2	CO4	**02**
	e.	Mention any two telephonic interview tips.	L1	CO5	**02**
		PART-B	**6 X 5=30**		
2.	**a.**	What is a conjunction? Define its type with examples.	L1	CO1	**5**
		OR			
	b.	**Select the most appropriate preposition from the list and fill in the blanks:** (of, in, than, at, because) **i.** I did not come ------- you did not call me **ii.** He is dependent ------- his relatives. **iii.** Open rebuke is better ------ secret love. **iv.** The class start ------ 9 ------ the morning.	L4	CO1	**5*1**
3.	**a.**	**Find the following sounds according to the underlined words. [IPA Vowel & Consonant sounds]** 1. L<u>ea</u>rn 2. T<u>a</u>le 3. <u>C</u>ash 4. <u>Y</u>ellow 5. <u>R</u>ose 6. T<u>o</u>p 7. K<u>ing</u> 8. Fl<u>a</u>t 9. b<u>oo</u>k 10. <u>Ch</u>oose.	L3	CO3	**1*5**
		OR			
	b.	Write a Public Speech in about 100 words on the following topic: ***"ONLINE GAME ADDICTION."***	L6	CO2	**05**

JAIN (Deemed-to-be-University) Learning Resource Centre Jain Global Campus Ramanagar-112

4.	**a.**	**i) Transformation of Sentences:** **i.** I looked for Danny everywhere but I could not find him. (Change into a complex sentence) **ii.** It was raining the whole day. We decided to go to the park. (Change into a compound sentence) **iii.** You will be able to move forward in life only if you accept your mistakes. (Change into Simple sentence) **ii)** Frame a Compound and a Complex sentence of your own.	L4	CO4	**5*1**
		OR			
	b.	Write the format of a cover letter for the job application.	L5	CO5	**5**
5.	**a.**	Define Paraphrasing and Summarizing.	L1	CO4	**5**
		OR			
	b.	**Convert the following sentences from direct to indirect and indirect to direct speech.** **i.** He had said to me, "We have been playing." **ii.** She asked who he was. **iii.** He said, "Sara is going to school." **iv.** They exclaimed that that house was very beautiful. **v.** She said, "I eat an apple."	L3	CO5	**5*1**
6.	**a.**	Differentiate Active and Passive listening.	L1	CO2	**05**
		OR			
	b.	Write a poem on ***"HONOR TO TEACHERS." (6 – 8 lines)***	L6	CO1	**05**
7.	**a.**	**Replace the underlined words with the correct synonyms from the given brackets:** **i.** That railroads were the ultimate mode of transport was a **widespread** belief before the 20th century. **ii.** The 1961 missile crisis brought the world to the **verge** of all-out war. **iii.** Whenever she reads a good mystery, it **whets** her appetite for more books by any author. **iv.** solemnity is most similar to -----. **v.** Please, please don't **aggravate** the situation! 'Tis already bad enough! (gravity, common, worsen, sharpens, brink)	L1	CO4	**5*1**
		OR			

	b.	Read the passage and **summarize** it. (40 words) Dolphins are regarded as the friendliest creatures in the sea and stories of them helping drowning sailors have been common since Roman times. The more we learn about dolphins, the more we realize that their society is more complex than people.previously imagined. They look after other dolphins when they are ill, care for pregnant mothers and protect the weakest in the community, as we do. Some scientists have suggested that dolphins have a language but it is much more probable that they communicate with each other without needing words. Could any of these mammals be more intelligent than man? Certainly, the most common argument in favor of man's superiority over them that we can kill them more easily than they can kill us is the least satisfactory. On the contrary, the more we discover about these remarkable creatures, the less we appear superior when we destroy them.	L3	CO4	**05**
		PART-C	**6 X 10=60**		
8.	**a.**	**Select the appropriate verb for the subject.** **i.** Either of the two candidates _____ eligible. (is/are) **ii.** Deepak with his friends _____ signed the petition. (has/ have) **iii.** These set of questions _____ pretty easy. (is/are) **iv.** That woman _____vegetables. (sells/sell) **v.** A lot of students _____ to clear this exam. (failing/has failed) **vi.** Twenty dollars _____ not a lot of money these days. (is/are) **vii.** Where _____ your grandmother and grandfather live? (does/do) **viii.** _____ either your brothers or mother going to buy a new flat? (are/is) **ix.** None of my friends _____ there. (was/were) **x.** Both the Registrar and the Admissions Office _____ your change of address information. (need/needs)	L1	CO1	**10*1**
		OR			
	b.	i) Define Prepositions and its types with examples. ii) Write two rules of Noun-Pronoun agreement with examples.	L1	CO1	**2*5**

9.	**a.**	Discuss the four types of Speech with suitable examples.	L1	CO2	**10**
		OR			
	b.	**i.** What is Public Speaking? **ii.** How does public speaking boost your confidence? **iii.** What are some tips for effective public speaking?	L2	CO2	**3** **4** **3**
10.	**a.**	Define Consonants and Vowels with suitable examples.	L1	CO3	**10**
		OR			
	b.	**Rewrite the following sentences from active to passive voice and passive to active voice.** **i.** The people were helping the wounded woman. **ii.** This portrait has been drawn by my sister. **iii.** Saina had taken the course. **iv.** Starbucks is loved by everyone. **v.** Cindy will take a photograph.	L3	CO1	**10*1**
11.	**a.**	Critically analyze the visual image. (250 words) 	L6	CO4	**10**
		OR			
	b.	Your PCL team needs one extra member who is skilled in some area relevant to your project and you are looking to hire him/her immediately. Prepare an advertisement for the same in 100 words, to be published in your department newsletter.	L3	CO5	**10**
12.	**a.**	Read the following passage carefully and answer the questions that follow: **The connection between too much sugar and not sleeping well** If you find yourself eating too much added sugar and unhealthy fats, it might be because you're not getting enough sleep, according to a study published Monday in the Journal of the American Heart Association. Researchers from Columbia University's Irving Medical Center examined the associations between measures of sleep quality and the dietary patterns of nearly 500 women who participated in the AHA Go Red for Women program, a year-long study of sleep patterns and cardiovascular risk in women. What they found was that the poorer their quality of sleep, and the less they slept, the more the women consumed added sugars, saturated fats and caffeine. According to the researchers, the findings are important	L3	CO5	**5*1**

because women are at high risk for obesity and sleep disorders, which can both be driven by a high intake of food. Foods high in added sugars and unhealthy fats are also linked to health conditions and diseases, including type 2 diabetes, heart disease and obesity.

"In our modern society, we oftentimes work late, we eat our meals late and sometimes sleep is kind of put by the wayside in terms of how important it is to our overall healthy lifestyle," said Dr. Brooke Aggarwal, senior author of the study and assistant professor of medical sciences at Columbia University's Vagelos College of Physicians and Surgeons.

"Our study really highlights the importance of good, quality sleep for the management of body weight as well as potentially preventing heart disease among women."

Nearly 500 women between the ages of 20 and 76 were examined for their sleep patterns and the quality and quantity of their food intake.

Participants self-reported how they were sleeping and eating using questionnaires. They were asked how frequently each item was consumed over the past year in addition to how much they usually ate according to portion size guidelines.

Over a third of the women studied had poor sleep quality or some level of insomnia. Nearly 30% slept less than seven hours per night and nearly 25% slept less than seven hours per night but also struggled with insomnia. The average sleep time among all the women was less than seven hours.

i. Percentage of the women in the study had some form of bad sleep or insomnia?

a) about 35% b) about 10% c) about 50%

ii. Did the women who slept badly consume more meat?

a) The article doesn't say b) Yes c) No

iii. Foods high in added sugars and unhealthy fats ----------.

a) were not consumed by any of the participants

b) were consumed more by women who slept well

c) can contribute to several illnesses

iv. According to the study, those who didn't sleep well -------.

a) ate less sugar b) ate more sugar c) ate less fat

v. The study was done as part of research on ---------

a) mental health b) heart health c) digestive health

ii) Read the above passage and form at least 5 bullet points by summarization.

	b.	Discuss the different types of listening barriers in communication with personal examples.	L2	CO2	**10**
13.	**a.**	Elaborate – **"MOTHER TONGUE INFLUENCE IN ENGLISH COMMUNICATION."**	L2	CO3	**10**
		OR			
	b.	Read the passage and **PARAPHRASE**. (100 – 125 words) Many researchers have proved that chocolate improves language learning because it contains sugar and stimulates serotonin levels in the brain, making learners happier. Leche and Melk (2001), for example, assessed 300 students and established that those learning a language often needed to increase their sugar levels. The majority of students in their study (80%) indicated that chocolate was their main source of sugar when they were studying. They benefitted more from dark chocolate than from milk chocolate, and each student required on average 50g of chocolate per thirty minutes of study time. A later study (Leite, 2008) involved 500 university students of Japanese, each of whom was given 100g of milk chocolate every fifteen minutes for three hours. This study was unsuccessful, however, as although these students derived much pleasure from the study few of them actually proceeded to submit their essays, as they were too full of chocolate to complete their assignments. A more recent study of English language students (Amargo, 2013), financed by a chocolate maker, found varying results. Those students who had eaten 100g of dark chocolate daily during the week-long study responded to the questionnaire at the end of the study period, but those who had eaten 1kg of white chocolate daily failed to respond, and it was assumed that they were feeling too sick to continue the research. Since dark chocolate is linked to increased serotonin levels those students who ate dark chocolate in the study may have become happier and more motivated. From all these studies it can therefore be assumed that moderate amounts of dark chocolate may be beneficial to study, but that larger amounts of chocolate, particularly milk or white chocolate, may be harmful to general health.
