SECOND SEMESTER B.Tech EXAMINATION, JULY - 2023

COMMUNICATIVE ENGLISH

Time: 3 Hours **Maximum Marks: 100**

Instructions: Missing data may be suitably assumed.

ANSWER ALL QUESTIONS

PART - A **(5×2=10)**

1.	**a.**	Frame a sentence that contains an adjective, 2 prepositions and 1 conjunction. Underline and mention the parts of speech used.	L - 1	CO1	**02**
	b.	Identify the word from the following phonetic transcription: **i.** /ɪnˈtel.ɪ.dʒəns/ **ii.** /ˌedʒ.ʊˈkeɪ.ʃən/	L - 3	CO2	**02**
	c.	Identify the number of syllables in the following words: **i.** Architecture **ii.** Engineer **iii.** Computer **iv.** Haemoglobin	L - 2	CO3	**02**
	d.	Explain: **i.** Discovery and **ii.** Dream in Appreciative Inquiry.	L - 2	CO4	**02**
	e.	Mention the type of reading followed in the below situations: **i.** Reading a newspaper in the morning when you are already late for work **ii.** To search for a word in a dictionary or index	L - 1	CO5	**02**

PART - B **(6×5=30)**

2.	**a.**	Convert from Active to Passive Voice: **i.** She baked a delicious cake for her friend's birthday. **ii.** Who designed this beautiful building? **iii.** The company awarded him with the "Employee of the Month" title. **iv.** They have elected John as the new class representative. **v.** The teacher is explaining the lesson to the students.	L - 2	CO1	**5X1**
		OR			
	b.	Select the most appropriate prepositions from the list and fill in the blanks: [regarding, in, beneath, for, despite, however]	L - 2	CO1	**5×1**

JAIN (Deemed-to-be University) Learning Resource Centre Jain Global Campus Ramanagar-112

		i.	The manager gave a speech _____ the company's future plans.		
		ii.	_____ his busy schedule, he managed to find time for his hobbies.		
		iii.	The children played happily _____ the park.		
		iv.	She thanked him _____ saving her life.		
		v.	The cat hid _____ the table, waiting for the mouse.		
3.	a.	i.	Explain the concept of monophthongs and how they differ from diphthongs.	L - 3	CO2	**2.5X 2=5**
		ii.	Describe the connection between vowel sounds and syllables.			
	OR					
	b.	i.	What are Consonants?	L - 3	CO2	**05**
		ii.	How many consonants are included in the Phonemic chart?			
		iii.	Use the following consonants and frame the phonetic transcription of words that include the specific sounds.			
			i. /tʃ/			
			ii. /dʒ/			
			iii. /p/			
4.	a.		Use appropriate synonyms from the list for the underlined words and form a sentence in your own words.	L - 3	CO3	**5×1**
			[reluctant, meticulously, vibrant, elegantly, devastation, sagacious]			
			Example: She is <u>stronger</u> than any other woman living.			
			The wrestling players have **sturdy** body.			
		i.	The sunset painted the sky with <u>vivid</u> hues of orange and red.			
		ii.	The cat <u>gracefully</u> leapt onto the counter and surveyed its surroundings.			
		iii.	The storm caused extensive <u>damage</u> to the coastal area, leaving behind destruction in its wake.			
		iv.	The young girl was <u>hesitant</u> to approach the unfamiliar dog in the park.			
		v.	The chef <u>carefully</u> garnished the dish with fresh herbs before presenting it to the guests			
			OR			
	b.		Fill in the blanks using appropriate words:	L - 1	CO3	**5×1**
		i.	The dog ___ (barks/bark) loudly at night.			
		ii.	Each of the students _____ (has/have) a different opinion.			
		iii.	The books on the shelf _____ (belongs/belong) to the library.			
		iv.	The team captain and coach ___ (is/are) discussing strategies.			
		v.	The group of friends _____ (enjoys/enjoy) playing board games.			

5.	a.	What are listening barriers, and how can they hinder effective communication? Discuss four examples of such barriers and propose strategies to overcome them. [100 words]	L - 3	CO4	05
		OR			
	b.	Imagine you are attending a live music concert and receive an urgent message from your professor. Describe the potential listening barriers you may encounter in such a scenario, and suggest three ways to overcome them. [100 -150 words]	L - 2	CO4	05
6.	a.	Paraphrase the following paragraph: Putting an end to wars remains a formidable challenge in the wake of a recent conflict. The task of halting the destructive cycle of armed conflicts presents numerous obstacles. The complexity lies in resolving deep-rooted grievances, promoting peaceful dialogue, and addressing the underlying causes of conflicts. Overcoming the challenge of stopping wars demands a collective determination to prioritise peaceful coexistence and find common ground among nations.	L - 2	CO5	05
		OR			
	b.	Paraphrase the following paragraph: India's future holds great promise and potential. As a diverse and vibrant nation, India is poised to embark on a transformative journey towards progress and prosperity. With its rich cultural heritage and burgeoning youth population, India is well-equipped to navigate the challenges of the modern world. By harnessing its technological prowess and fostering innovation, India is set to emerge as a global powerhouse. As the world's largest democracy, India is committed to upholding democratic values and ensuring inclusive growth for all its citizens.	L - 2	CO5	05
7.	a.	Write a speech on 'ChatGPT and its usage for students.' [150 words]	L - 1	CO6	05
		OR			
	b.	Compose a poem consisting of two stanzas, each containing four lines, addressing a socially relevant topic of discussion.	L - 1	CO6	05
		PART - C		**(6×10=60)**	
8.	a.	**i.** Explain with examples the different kinds of preposition.	L - 1	CO1	05
		ii. Identify the Independent and dependent clauses (if any) in the sentences given below and mention the type of conjunction (coordinating, subordinating, correlative) used:			05
		i. I went to the store, but they were closed. **ii.** She sings beautifully whenever she performs on stage. **iii.** Although it was raining, they decided to go for a walk. **iv.** I will finish my work early so that I can join the party. **v.** He neither called nor sent a message.			

OR

	b.	1. What are the basic rules for Noun-Pronoun agreement? Explain with examples. 2.Identity whether Direct or Indirect speech and convert: **i.** She said, "Can you help me with this task?" **ii.** "I will meet you at the café", he said. **iii.** She inquired why I had broken the vase. **iv.** "Don't forget to bring your passport", he reminded her. **v.** "Be careful while crossing the road", he warned.	L - 1	CO1	**05** **05**
9.	**a.**	Explain the three dimensions of speech in phonetics and also mention the major rules/patterns and examples associated with them. [150 words]	L – 2	CO2	**10**
		OR			
	b.	How can developing skills in public speaking and effectively utilising **i.** memorised, **ii.** scripted, and **iii.** extempore speeches benefit individuals in real-life situations such as job interviews, presentations, or public speaking engagements? Distinguish between the characteristics of the three types of public speeches and elaborate your answer according to the situations provided. [150 words]	L - 3	CO2	**10**
10.	**a.**	**Read the following passage to answer the questions in not more than one sentence.** In recent years, the field of education has witnessed significant advancements and transformations. Technological innovations, changing pedagogical approaches, and a greater focus on inclusivity and personalised learning have all contributed to the evolution of education. These developments aim to equip students with the skills and knowledge needed to thrive in the modern world. One notable development is the integration of technology in education. The rise of digital tools and online platforms has revolutionised the way students learn and interact with information. Virtual classrooms, interactive simulations, and online resources have made education more accessible and engaging. Additionally, the use of artificial intelligence (AI) and machine learning algorithms has allowed for adaptive learning experiences tailored to each student's needs and learning pace. Another significant development is the shift towards student-centred learning. Traditional teaching methods that relied on rote	L - 2	CO3	**10**

memorisation and passive learning are being replaced by approaches that encourage critical thinking, problem-solving, and collaboration. Project-based learning, flipped classrooms, and experiential learning are gaining popularity, as they provide students with hands-on experiences and foster a deeper understanding of the subject matter. There has been a growing emphasis on inclusivity and diversity in education. Schools and universities are striving to create inclusive learning environments that accommodate students with diverse backgrounds, abilities, and learning styles. Specialised programs and support services are being implemented to ensure equal opportunities for all learners.

Moreover, interdisciplinary studies have gained traction in recent years. Recognising the interconnectedness of various fields, educational institutions are promoting interdisciplinary approaches to encourage students to think holistically and tackle complex problems. This approach fosters creativity, innovation, and a broader understanding of real-world challenges. Recent developments in education have transformed the traditional learning landscape. Technology integration, student-centred approaches, inclusivity, and interdisciplinary studies are reshaping the way students learn and acquire knowledge. These advancements aim to prepare students for the demands of the rapidly evolving global society and equip them with the skills necessary to succeed in their personal and professional lives. The word 'harbour' in the passage is closest in meaning to:

1. What are some recent developments in the field of education?
2. How has technology impacted education?
3. What is the purpose of student-centred learning approaches?
4. What is one aspect of inclusivity in education?
5. What is the focus of interdisciplinary studies?
6. How has technology made education more accessible?
7. Which learning approach encourages hands-on experiences?
8. What is the purpose of adaptive learning experiences?
9. What is the aim of inclusivity and diversity initiatives in education?
10. What skills can interdisciplinary studies foster in students?

OR

b.	Write a situational dialogue between a student and a professor discussing their upcoming university project. The dialogue should cover the feasibility of the project, resources needed, and expectations for the final presentation. Use appropriate language and expressions to convey professionalism and clarity in the conversation. (*Minimum 5*	L - 1	CO3	**10**

main conversational exchanges)

11.	**a.**	Assume you are a team leader in a professional setting. What type of listening approach would be most effective to foster better communication within your team? Explain why and state any two benefits of employing such a listening method. [150 words]	L - 2	CO4	**10**
		OR			
	b.	Why is listening important in communication skills? Distinguish between the two major types of listening. Give two examples each. [150 words]	L - 2	CO4	**10**
12.	**a.**	**Read the following article and summarise it in 150 words:**	L - 2	CO5	**10**

How has the integration of artificial intelligence (AI) impacted the realm of education? In recent years, the convergence of AI and education has revolutionised traditional teaching and learning methods. AI, with its ability to analyse vast amounts of data and perform complex tasks, has opened up new possibilities for personalised learning experiences. Through adaptive learning algorithms, AI systems can identify individual students' strengths and weaknesses, tailoring educational content to meet their specific needs. This enables students to progress at their own pace, enhancing their understanding and engagement in the learning process. AI-powered virtual tutors and chatbots have emerged as valuable tools, providing immediate feedback and guidance to students, thereby fostering self-directed learning.

Moreover, AI has greatly contributed to the development of intelligent educational systems. These systems employ machine learning algorithms to process and interpret data, allowing educators to gain insights into student performance and make data-driven decisions. By analysing patterns and trends, AI can identify areas where students may be struggling, enabling teachers to intervene and provide targeted support. This proactive approach to education facilitates early intervention and promotes academic success. AI can automate administrative tasks such as grading, freeing up educators' time and allowing them to focus on more meaningful interactions with students.

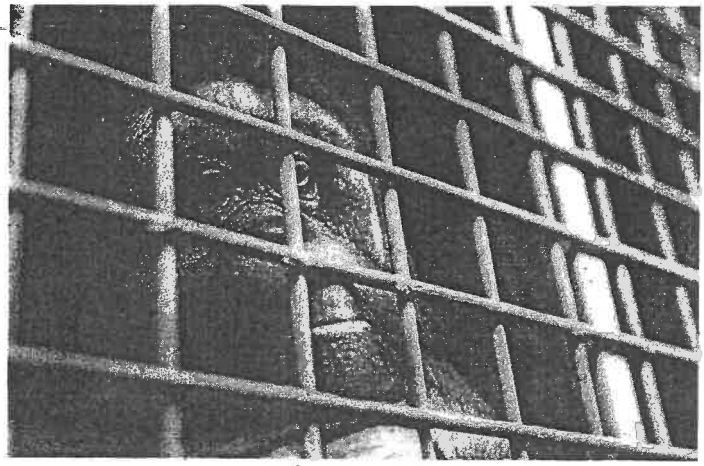
However, as AI continues to advance in education, ethical considerations arise. Ensuring data privacy and security becomes crucial, as AI systems collect and analyse sensitive student information. The concerns surrounding algorithmic bias must be addressed, as AI systems can unintentionally perpetuate existing inequalities if not properly designed and monitored. Therefore, it is imperative to establish transparent guidelines and ethical frameworks to govern the use of AI in education, safeguarding students' rights and

promoting fairness.

The integration of AI in education has brought about significant transformations. From personalised learning experiences and virtual tutors to intelligent educational systems, AI has enhanced teaching and learning processes. Nevertheless, careful attention must be given to ethical concerns associated with data privacy, security, and algorithmic bias. By harnessing the power of AI responsibly, educators can leverage its potential to create a more inclusive and effective educational environment.

OR

b. Critically analyse the following picture (150 words): L - 2 CO5 **10**



13. a. You are a qualified Computer Engineer having completed your specialisation in Artificial Intelligence. Write a job application letter to a potential company in the United Kingdom for the post that you wish to apply for. (200 words) L - 5 CO6 **10**

OR

b. Write a short article about the importance of communicative skills in the English language in the workplace. Mention any 5 disadvantages that a person would have to face if he/she is not good in his/her communication skills in English. (200 words) L - 1 CO6 **10**
