[22EE33]

THIRD SEMESTER B.Tech EXAMINATION, DECEMBER - 2023

BASIC EV DESIGN CONCEPTS WITH ELECTRICAL CAD

Time: 3 Hours **Maximum Marks: 100**

Instructions:
i. Missing data may be suitably assumed.
ii. ANSWER ALL QUESTIONS

PART-A **5 X 2=10**

1.	a.	Why is Capital Harness Designer used?			
	b.	What is change management?			
	c.	When creating a new design which fields are compulsory?			
	d.	What is a Splice and the shortcut key to use it?			
	e.	Upon adding a component mid-bundle which dialog box opens?			
		PART-B			**6 X 5=30**
2.	a.	What is cavity component management (CCM)? Name 3 things which can be selected in Cavity Component Management.			
		OR			
	b.	What is a change policy? What is the effect of it?			
3.	a.	What is a Harness Design?			
		OR			
	b.	How to create a Harness Design, Mention the steps below.			
4.	a.	What is harness processing? Name 2 things that will get automatically appears after processing.			
		OR			
	b.	What are the project reports available in Capital Logic Designer? List 5 report names.			
5.	a.	What is the Border in the Capital application and where it will be created?			
		OR			
	b.	How can a project is imported in a Capital Harness Designer			
6.	a.	What is Composite Harnesses? Explain Parent and child designs.			
		OR			
	b.	Mention any 5 types of dimensions available.			
7.	a.	What is a diagram? Name the operations which can be performed with the diagrams.			

		OR			
	b.	List out the operations that can be performed to manage the pins.			
		PART C	**6X10=60**		
8.	**a.**	Justify the need for insulation? List any 4 insulations			
		OR			
	b.	Mention the 6 points connected with the chapter Device and Connectors			
9.	**a.**	Write short notes on Projects and Designs			
		OR			
	b.	How to create a connector in Capital Component Manager?			
10.	**a.**	Define codes from the Capital Component Manger also list any 4 codes.			
		OR			
	b.	Mention the list of prerequisites to synchronize the design from Capital Logic Designer.			
11.	**a.**	What is Wire Group Definition? Mention any 3 wire material codes.			
		OR			
	b.	Mention 3 modules each of the following categories. Electrical Design, Manufacturing & Publications Data Management.			
12.	**a.**	What is companies section in Capital Component Manager? Name the types.			
		OR			
	b.	Give the Synchronization Overview and what are the things can be synchronized?			
13.	**a.**	What is a connector? Mention their 4 types:			
		OR			
	b.	What is a multicore wire? Draw any two types of multicore type:
