FOURTH SEMESTER B.TECH EXAMINATION, JUNE – 2019

PROGRAMMING IN JAVA

Time:3 Hours **Maximum Marks:70**

Instructions:

1. Answer any **FIVE** full questions.Choosing at least **TWO** questions from each part.
2. Any missing data may be suitably assumed.

PART - A

1.	**a.**	Explain the salient features of Java.	**07**
	b.	What is an array? How do you define and use an array? Explain with example.	**05**
	c.	List the default values of the data types available in java.	**02**
2.	**a.**	Distinguish while and do-while statements with example.	**05**
	b.	Discuss and compare the >> and >>> operators.	**04**
	c.	Write a java program to search an element in the array using for each loop.	**05**
3.	**a.**	Differentiate constructors and methods.	**04**
	b.	Explain the characteristics of a static variable and static method with example.	**06**
	c.	Explain the two uses of this operator.	**04**
4.	**a.**	Define inheritance? Mention the different types. Explain Multi level inheritance with example.	**07**
	b.	What is runtime polymorphism? How do you achieve run time polymorphism in java? Illustrate with an example.	**07**

PART - B

5.	**a.**	What is String in java? Explain the different String constructors.	**07**
	b.	What is multiple inheritance? How it is implemented on java? Explain.	**07**
6.	**a.**	Explain the differences between checked and unchecked exceptions with examples.	**06**
	b.	Define Exception. Demonstrate the working multiple catch statements with example.	**08**
7.	**a.**	Explain the different JDBC drivers.	**06**
	b.	Write a JDBC application to display the contents of a table.	**08**
8.		Write short Notes on	**14**

i. super keyword
ii. finalize method
iii. static
iv. final keyword
