FOURTH SEMESTER B.Tech EXAMINATION, JUNE– 2023

DATA ANALYTICS USING EXCEL

Time:3 Hours **Maximum Marks:50**

Instructions:
- **i.** PART - A (Question 1-5) answer any 4 questions.
- **ii.** PART - B (Question 6-8) answer any 2 questions.
- **iii.** PART - C (Question 9) is compulsory

PART – A 05X04=20

1. a. Explain how you can add columns and rows in Excel. **02**

b. How will you transpose a data set, write steps? **03**

2. a. Write a formula which will return 10% of the largest number which are present in Cell A2 and A3. **03**

b. Demonstrate formula to get the average of the numbers which are present in cells A1, A3, A4 and A5 using *average()* function. **02**

3. a. Illustrate use of conditional formatting in Excel. **Describe** an example of use of Conditional formatting. **03**

b. Demonstrate the formula which will add numbers present in cells A1, A3, A4 and A5 using Sum() function. **02**

4. a. Compose formula which will return larger number which are present in Cell A2 and A3. **02**

b. A giant electronics company is looking into the following potential products, (given in the table below) where they can earn at-least profits of 2200. Write formula to show whether to accept or reject the products under consideration. **03**

	A	B	C
1	**Products**	**Profit (Rs.)**	**Product to be considered**
2	Cube Printer	3,718	
3	Micro-Cut Shredder	2,401	
4	Canon image Advanced Copier	18,480	
5	Monochrome Digital Laser Multifunction Copier	1,996	
6	Personal Laser Copier	2,303	
7	Electric Binding System	1,973	
8	Manual ProClick Binding System	2,740	

JAIN (Deemed-to-be University) Learning Resource Centre Jain Global Campus Ramanagar-112

5. a. Demonstrate in what situation we use filtering data in Excel. 02

b. How to Solve filtering of data by using multiple criteria? 03

PART - B **09X02=18**

6. a. Compare and contrast the differences between "AND" and "OR" criteria of advanced filter with the help of an example. 04

b. Global Incorporation is looking into three of the potential projects and will accept the project only if the IRR from the project is expected to be 12% or above. Compose a formula that shows whether to accept or reject the projects under consideration? 05

Particulars	IRR
Project 1	10.50%
Project 2	11%
Project 3	12.50%

7. a. *Consider following data for 7a and 7b questions.* 04

	A	B	C	D	E
1	**Product Name**	**Date of Sale**	**Sales Amount ($)**	**Region**	**% Sales**
2	Product A	1/1/2022	$500	West	
3	Product B	1/2/2022	$1,200	East	
4	Product C	1/3/2022	$750	West	
5	Product A	1/4/2022	$900	North	
6	Product B	1/5/2022	$1,800	South	
7	Product C	1/6/2022	$1,000	East	
8	Product A	1/7/2022	$1,200	North	
9	Product B	1/8/2022	$1,500	West	
10	Product C	1/9/2022	$1,000	South	

Write a formula to get the total sales amount for each product (We have 3 products here).

b. Write formula for the total sales amount for each region? You may create the necessary format on your answer sheet and write. 05

8. a. What is a Pivot table? 04

b. Give an instance where a Pivot table can be used and give layout of the Pivot table which can be created by using your example. 05

PART - C

01X12=12

9. a. *Refer the table below for following three questions* **04**

Name	Age	Gender	Occupation	Salary (Rs.)	Bonus
John	35	Male	Engineer	80,000	
Sarah	28	Female	Sales	60,000	
Tom	42	Male	Manager	100,000	
Jane	26	Female	Marketing	50,000	

Write steps to give name to your table.

b. Construct table to setup problem to be solved by using VLOOKUP. **04**

c. Consider above data, use VLOOKUP and Write formula to calculate Bonus using following criteria: **04**

Salary < Rs 50000, Bonus = 5% of Salary

Salary Rs 50001 to < Rs 75000, Bonus= 10% of Salary

Salary Rs 75001 to < Rs 100000, Bonus=20% Salary

>=Rs 100001, Bonus = 25% of Salary
