FIFTH SEMESTER B.Tech EXAMINATION, DECEMBER - 2024

DATA VISUALIZATION USING TABLEAU

Time: 3 Hours **Maximum Marks: 100**

Instructions: i. Missing data may be suitably assumed.

ANSWER ALL QUESTIONS

		PART-A			**5 x2=10**
1.	**a.**	Who developed Tableau?	L1	CO1	**02**
	b.	Explain any two components of Tableau Desktop.	L2	CO2	**02**
	c.	Highlight the use of Story in a Tableau.	L2	CO3	**02**
	d.	Define Quick Table Calculation in Tableau.	L1	CO4	**02**
	e.	Describe how different shades of a color can be used to represent value of a field.	L2	CO5	**02**
		PART-B			**6 X 5=30**
2.	**a.**	Describe the challenges in traditional data visualization techniques.	L2	CO1	**05**
		OR			
	b.	Compare and contrast the data visualization using tableau and data visualization using Python codes.	L4	CO1	**05**
3.	**a.**	Describe the meaning of abc, #, calendar symbol, and globe symbol in Tableau data types.	L2	CO2	**05**
		OR			
	b.	You want to transfer the created visualization along with the dataset. Which format of tableau you will use to do the same?	L3	CO2	**05**
4.	**a.**	Describe the steps to show Data Cleaning flow in a dataflow in Tableau Prep.	L2	CO3	**05**
		OR			
	b.	Describe a few sources from where you can import data in Tableau.	L2	CO3	**05**
5.	**a.**	Describe the steps to sort any measure in ascending order.	L2	CO4	**05**
		OR			
	b.	Give a few examples of Calculation you can do on a numerical field.	L3	CO4	**05**
6.	**a.**	Describe how can you sort Date field of a dataset.	L4	CO5	**05**
		OR			
	b.	Describe a calculation which can be done on textual data.	L2	CO5	**05**
7.	**a.**	Explain the use of 'size' parameter in the marks card.	L2	CO4	**05**

Deemed-to-be University Learning Resource Centre Jain Global Campus Ramanagar-112

		OR			
	b.	Describe in what ways you can visualize a 'date' field of the data.	L4	CO4	**05**
		PART-C	**6 X 10=60**		
8.	**a.**	Describe how can you create a dashboard using Tableau for the dataset namely "financial data" with fields 'user_id', 'number of investments', 'investment date', 'investment amount'.	L4	CO1	**10**
		OR			
	b.	Given a dataset from Indian government. Explain how can you perform EDA using Tableau.	L4	CO1	**10**
9.	**a.**	Differentiate between blue pills and green pills in tableau.	L2	CO2	**10**
		OR			
	b.	Write the steps for filtering a geographical field containing country names.	L1	CO2	**10**
10.	**a.**	Describe the steps to import a csv file in MySQL and from MySQL to Tableau.	L2	CO3	**10**
		OR			
	b.	Describe how can you convert continuous data to discrete and vice-versa in Tableau.	L4	CO3	**10**
11.	**a.**	Differentiate between set and group in Tableau.	L2	CO4	**10**
		OR			
	b.	Describe the steps to perform filtering on textual data.	L2	CO4	**10**
12.	**a.**	Describe the steps to create a word cloud on a dataset which contains trump tweets in Tableau.	L4	CO5	**10**
		OR			
	b.	Differentiate between a pie chart and bar chart.	L2	CO5	**10**
13.	**a.**	Describe how can you perform floor function calculation on a field. The role of a floor function is to find the floor value of each entry in the field. For example: floor(4.5)=4 floor(2.3)=2 floor(5.8)=5	L4	CO4	**10**
		OR			
	b.	Describe how can you calculate average, rank, and percentile of a field in the dataset.	L4	CO4	**10**
