FIFTH SEMESTER B.Tech EXAMINATION, DECEMBER–2021

COMPUTER NETWORKS

Time:3 Hours **Maximum Marks:70**

Instructions: i. Answer **FIVE** full Questions. Question number 1 and 2 are compulsory. Each question carries 14 marks.

ii. Missing data may be suitably assumed.

1.	**a.**	Discuss the major functions performed by the presentation layer and application layer of the ISO OSI model.	**10**
	b.	List the network topologies.	**04**
2.	**a.**	Explain the categories of networks.	**07**
	b.	Describe the different physical media.	**07**
3.	**a.**	Outline the various available detection methods.	**07**
	b.	Briefly discuss the services provided by data link layer.	**07**
		OR	
4.	**a.**	Write short notes on: I. Go back NARQ II. Selective repeat ARQ	**07**
	b.	Analyse the role of 802.11.	**07**
5.	**a.**	Explain in detail the functions of MAC.	**07**
	b.	Describe the main goal of routing algorithm. Explain the concept of static routing.	
		OR	
6.	**a.**	Explain the design issues of network layer.	**07**
	b.	Outline general principles of congestion control. Explain anyone congestion control techniques.	**07**
7.	**a.**	Brief about the DNS structure with an example.	**07**
	b.	Describe possible scenario for a transport connection in terms of addressing elements.	**07**
		OR	
8.	**a.**	Explain World Wide Web with example.	**07**
	b.	Discuss in detail how Electronic mail application is carried out in a network. Explain the protocols used in this application.
