SEVENTH SEMESTER B.E EXAMINATION, DECEMBER-2015

IRRIGATION ENGINEERING

Time: 3 Hours **Maximum Marks:70**

Instructions:

1. Answer any **FIVE** full Questions.

1.	**a.**	Define hydrology. Hydrology is highly interdisciplinary science, Justify.	**06**
	b.	Explain the necessity of irrigation for tropical country like India.	**08**
2.	**a.**	Discuss in brief various method of surface irrigation.	**08**
	b.	Write a note on Bandhara type of irrigation.	**06**
3.	**a.**	What are the factors affecting duty? How can duty be improved.	**08**
	b.	What do you understand by crop rotation? What are its advantages?	**06**
4.	**a.**	With neat figure, explain how to determine the safe yield from a reservoir of a given capacity.	**08**
	b.	Write short notes on any two of the following.	**06**
		i. Mass inflow curve	
		ii. Demand curve	
		iii. Bank and valley storage	
		iv. Yield of reservoir	
5.	**a.**	"Lacey's concept of design of canal on an alluvial soil is superior to Kennedy's concept' justify the statement.	**06**
	b.	Explain the various classifications of canals.	**08**
6.	**a.**	What are the necessities of canal lining?	**04**
	b.	What are the advantages and disadvantages of canal lining?	**06**
	c.	Write a note on precast concrete lining.	**04**
7.	**a.**	What are the causes of water logging and give the remedial measures ?	**08**
	b.	What do you understand by land drainage? Explain the different type of drains.	**06**
8.	**a.**	What are the requirements of canal outlet?	**06**
	b.	Write a note on any two.	**08**
		i. Non-modular outlet	
		ii. Semi modular outlet	
		iii. Rigid outlet
