SECOND SEMESTER M.TECH EXAMINATION, JUNE–2019

FRUIT AND VEGETABLE TECHNOLOGY

Time: 3 Hours **Maximum Marks: 100**

Instructions: **i. Answer FIVE full questions. Question No. 1 and 2 are compulsory.**
ii. Draw neat sketches wherever necessary.
iii. Make suitable assumptions wherever necessary.

1. Discuss the status of fruits and vegetables production in the country, post-harvest handling and other operations and causes involved in fruit and vegetable industry. **20**

2. **a.** With a neat flow diagram, elaborate the process involved in fruit ripening. **10**
   b. Analyze the impact of cold chain on fruits handling with examples. **10**

3. **a.** Elaborate the principle, methodology and applications of canning vegetables. **10**
   b. Illustrate hot & cold break process with suitable examples; add a short note on its merits and demerits. **10**

OR

4. **a.** Elaborate the working principle of any two types of evaporators. **10**
   b Illustrate the steps involved in fruit powder production. **10**

5. **a.** Examine the applications of UV light in fruits processing. Extend a note on impact of UV treatment on nutritional quality of fruits. **10**
   b. Formulate the working principles of Ultrasound technology in food preservation. **10**

OR

6. **a.** Prioritize the application of MAP in fruit and vegetable processing. **10**
   b. Elaborate the application of ozone in food processing with a special emphasis on the demerits. **10**

7. **a.** Prioritize the applications of edible coating on fruits. With special emphasis on the guidelines of FDA. **10**
   b. Critically examine the process of wine making, with a special note on formation kinetics. **10**

OR

8. **a.** Inspect various process involved in fruit bar production, with a special emphasis on future prospective. **10**
   b. Investigate the various techniques involved in the waste management techniques in fruit processing industry. **10**
